

For this essay, you need to actually do a little research on a Greek myth. Try this as a guide for an outline:

I. Introduction

A. A little bit of an introduction to mythology or Greek society or Greek gods (depending on what is appropriate for your topic)

B. Thesis Statement - In a sentence, state the myth you are discussing and its impact on society today.

II. Summary of Myth

A. Summarize the myth that you researched.

B. Tell the story from beginning to end WITHOUT copying it from a website. Imagine that you are explaining it to someone that has never read about it.

III. Conclusion/Reflection

A. What references to this myth do we still see in modern society?

B. Why is this myth significant today?

Give a citation at the end for your source. Try using EasyBib or Son of Citation Machine to do an MLA citation. If you need help, just shoot me an email or give me a call!

PLEASE ask for help if you are confused. I will always be happy to answer questions, offer you resources, read your prewriting or rough draft before you revise your final draft, or chat with you to tutor.
